## Milk

Milk is the most important food for young children. The child may take his milk as a drink, or on bread, cereal or fruit. Milk is also used in making soups, custards and puddings.

Milk is a liquid, but it should not be thought of as a beverage, as something to drink in place of water. Milk is a food containing about 12 per cent of solids. These solids are the very best food substances.

If you evaporate a quart of milk, you secure about half a cupful of butter fat, milk sugar, and small amounts of certain minerals which go to make muscles, bones and teeth.

We cannot see these substances in milk because they are dissolved, but when we use milk, we take them into our bodies and so receive all the nourishment that the milk contains.

In addition to these food substances which build up the body and repair and restore worn-out tissues, milk contains vitamins, which are so important in promoting growth and development in children and in keeping children and adults well.

There is no other food which can serve as well as the basis of a diet for a child. It is most desirable that every child should receive the benefits which are derived from the use of sufficient amount of milk each day in his diet.

There have been many experiments carried out in which the effects of milk upon children have been carefully observed, and these observations have shown that children do benefit by the use of milk.

Milk is rich in calcium (lime) and phosphorus. The green leafy vegetables are another source of calcium. The use of milk assures the body of sufficient calcium, the lack of which causes damage to the bones of the body and to the teeth.

A great advantage of milk is the ease with which it can be

## Meeting to Consider Forming Three-Team Baseball League

A baseball meeting was held in the parlors of the Empress Hotel on Tuesday evening to consider the formation of a three team baseball league, consisting of Acadia Valley, Blindfloss and Empress. The financial statement of Secretary C. R. Moore, showed a deficit of \$50.25 in bank. Secretary's statement and minutes of last meeting were passed.

Election of officers was then held and following were elected: N. D. Storey, president; C. L. Hay, secretary.

It was moved that the team select their own captain and manager.

Messrs. Paul and McEwen were elected to attend a meeting with representatives of Blindfloss and Acadia Valley for the purpose of forming a league.

In the question of gate receipts it was resolved that the delegates use their own discretion as to the question of posting or not.

Messrs. Saunders, Acton, Usher and Chisholm were elected as a committee to arrange date and superintend a dance.

Messrs. D. McKee and F. Scott were elected to act as transportation committee.

Meeting was then adjourned.

## Presented With Triplets

There were born to Mr. and Mrs. S. Stophel, at the Empress hospital on Friday, April 25, a daughter and two sons. Mother and all three children are reported to be doing well.

combined with other foods. The need of a properly balanced diet is frequently mentioned. The term "protective foods" has been given to milk and the leafy vegetables because of their ability to make good the deficiencies of other foods. If we use milk and leafy vegetables, we are protected from the ill results of an unbalanced or deficient diet.

Milk is the one food for which we have no satisfactory substitute.

## Tennis Club Organize

A meeting of the local tennis club was held in the Bank of Commerce rooms on Wednesday evening last week, April 23, to organize for the present season. Minutes of last meeting and financial statement for 1929 were read by President J. Schofield, in the absence of the Secretary, and were passed as read.

Election of officers then took place and the following were elected: Dr. Donker, president; Mrs. Wm. Stothers, vice president; Wm. Acton, secretary.

Mrs. W. Acton and Mrs. R. A. Pool, ladies membership committee. K. Hendry and W. Acton, gentlemen's committee. Executive committee: In conjunction with other officers, D. McKee, R. Paul and J. Schofield.

The matter of open tournaments was left in the hands of the executive committee.

Fees were set at: \$5 for married couple, ticket; \$3 adults, single ticket; \$1.50 and \$2.00 for high school students, the latter priced ticket will enable the student to be eligible to play on the courts after 7 p.m. at discretion of executive committee.

A notice to be posted on the fence at the courts, that short games, first one winning six sets, be played if other members are waiting.

The president of the club asked for the full support and co-operation of the club members in helping on the success of the club and working for a banner season.

## Report of Cream Prices

For the week ending April 19th, 1930, the following prices were reported paid by creameries per pound of butterfat, in several grades of cream, and at the points shown:

Jasper Dairy, special grade, 36c, No. 2 34c.  
Ponoka, special grade, 35c, No. 1 33c; No. 2 30c.  
Minimum: Special grade, 32c; No. 1, 30c; No. 2, 27c.

## Heavy Precipitation Assures Crop Good Start

Heavy rainfall which commenced on Thursday evening of last week and continued at intervals up to Tuesday, has provided an abundance of spring moisture for the coming crop. The measurement of precipitation up to Wednesday, is given by the local govt. report as 1.80 inches. The weather still remains cloudy. The seeding is well forward in the south district, but only just commenced in the north district. The ideal conditions will tend to a greater acreage being seeded.

## The Limitations of Treatment For Tubers Against Scab and Rhizoctonia

In 1929 potato growers were disappointed with the amount of common scab and the loss in yield from under-sized and misshapen tubers caused by rhizoctonia, and naturally are at a loss to understand why this should be after careful treatment of the tubers, or planting on land not used for potatoes for several years.

The common scab and rhizoctonia diseases are perhaps the most difficult to control, or even check by ordinary seed treatment. Consequently a brief explanation of the situation may be helpful.

Both scab and rhizoctonia are caused by fungi, each differing widely in growth characteristics, appearance and activity. The fungus causing common scab is very small, and is definitely restricted in growth when compared with the fungus causing rhizoctonia, the threads of which will grow quickly, and travel comparatively far in the soil.

The scab fungus produces a great number of spores, which under favorable conditions help to spread or increase this fungus in the soil. The scab fungus penetrates the tiny branching pores on the surface of the tuber where its action stimulates the formation of unsightly corky spots on the surface. On these spots spores may be seen at harvest. Many of these spores fall off in the harvesting operations, and reach the soil or unaffected tubers.

The rhizoctonia fungus attacks any part of the underground plant, attacking the stem or stolons, or raising the tuber the injury obviously depending on the depth of the tissue destroyed. When the stems or stolons are badly can-

Evening, 7:30 p.m.  
Mr. Grant, Incumbent.

kered, the plant becomes bushy, often faintly purplish at the top and small above-ground tubers form around the stem, and at the axil of the leaves. When the crop is dug, the tubers may or may not have on their surface (depending largely on weather conditions) black dirt like masses of the fungus adhering lightly to the skin. Sometimes these masses are large and hard, or they may be small and loosely formed. These masses of fungi, if planted again on the set, will quickly grow through the soil to the young shoot, and later the other parts of the plants. Apparently clean tubers may carry threads of the rhizoctonia fungus on the surface.

To understand the limits of treatment, it must be remembered that both the scab and the rhizoctonia fungi are native to all normal soils where they are relatively abundant along with hundreds of other kinds of soil inhabiting fungi and bacteria. The more cultivation of the soil, regardless of the crop, appears to increase these soil fungi, so that after several years or less from the virgin soil, one may get a large amount of either scab or rhizoctonia on the potato crop. For heavy infection of scab or rhizoctonia at least two things are necessary: the amount of either fungus in the soil must be great, and the conditions (temperature and moisture) for active growth must be favorable for them to reach the plant.

This note in part is simply to mention the natural limitations to effective tuber treatment against scab and rhizoctonia, and is not intended as an argument against the common practice in the use of either formalin or corrosive sulphuric acid solution.—Exp Farms Note.

## PUBLIC NOTICE

Take notice that a pond has been established by the Municipal District of North Edmonton, in the North West Quarter of 234th West of the Fourth Meridian, and that Mr. R. A. Snel, of Blindfloss, is the District Officer. Notices will be posted at the Point at the corner of Sec. 12-24-3 W. 4, in Blindfloss road, and also at Blindfloss Post Office.

D. M. GRATHAM,  
Sec. Treas.

## Strayed

to W. 12-24-29 W. 3, One Black Mare, about 9 years of age, about 10 lbs. as a saddle brand, has tall trimmed short. —Carl Becker, Empress, P.O. 5p

## KODAK TIME

The Bright and Sunny days are here, and you will be bringing out your Kodak to pictures of Spring scenes. Remember we carry a good stock of Photographic Supplies that we can assure you of good service.

Final agents for South Central, Western and Eastern Provinces. Write for the latest price.

EMPRESS DRUG CO.

## Railway Baby

Born on the Canadian Pacific Railway Express Train "The Dominion" near Kamloops, British Columbia, recently the smiling infant shown with her mother above has been christened Christina Patricia. Localized, the names being arranged in the initials C.P.R., in honor of her railway birth. Little Miss C.P.R. is the daughter of Mr. and Mrs. J. Peterson, North Vancouver, B.C.

# Great Britain Refuses To Enter Military Security Pact With France

London, England.—Great Britain refuses to enter a military security pact with France as a condition of reduction of French naval demands. This attitude, which may dash hopes of a five-power agreement, was made absolutely clear recently by a British spokesman after Premier J. Ramsay MacDonald had conferred with Foreign Minister D'Amico Grandi of Italy.

The spokesman added, however, that negotiations seeking a formula satisfactory to both France and Britain were continuing.

England, the spokesman said, is anxious and willing to go the limit for peace and for improvement of the machinery for keeping peace and giving security against war.

"But any further military commitments are absolutely impossible," he declared. "They would be tantamount to tying ourselves down to engage in military operations without being able to control the situation from which they arose. No British government could undertake such commitments, which are contrary to the feeling of the whole British people."

Previously, the Italian delegation issued the following communiqué: "Signor Grandi, accompanied by Signor Rosso, had lunch with Prime Minister MacDonald at Chequers. Before lunch, in conversation lasting more than an hour, MacDonald and Grandi discussed the present state of the work of the conference. Grandi again took the opportunity to state Italy's viewpoint on the problem of disarmament. The position of Great Britain and Italy also was examined regarding the questions of interpretation of article 16 of the League of Nations covenant."

The final statement of the communiqué was regarded as significant. France in seeking a military security pledge, had sought to make mandatory the provisions of article 16 relating to action to be taken against an aggressor, whereas England for years has interpreted the provisions as optional. The mere fact that the article was discussed in the communiqué indicates that its interpretation has not been dropped as a means of salvaging the present conference deadlock.

Italy's interest in the proposal was held natural, in view of her position in the Mediterranean and of a possible future trouble scene.

The French expressed pessimism when they learned of the British statement. The whole attention of British diplomats will be concentrated on Mediterranean problems this week. A new treaty of friendship and settlement of Palestine's political future also will be discussed at another conference.

## Opened Exhibition By Radio

Marconi Spoke From Genoa, Italy, To Sydney, Australia

Genoa, Italy.—Short radio waves cutting across the Atlantic, America and the Pacific carried the voice of Marquis Guglielmo Marconi, inventor of wireless, from his yacht *Electra* here, to Sydney, Australia, to open the electrical exposition there.

Marconi spoke across 11,000 miles to Director J. Fisk, of the electrical association, reading a message which outlined what he intended doing later in the day—transmitting a small unit of power to Sydney in order to close a circuit there and light the electric lamps of the exposition.

# Government Will Continue The Trade Treaty With Australia

Ottawa.—Both the sub-amendment, calling for revision of the Australian treaty, and the amendment declaring that it should be abrogated, met with defeat in the House of Commons. The sub-amendment, which was moved by Hon. H. H. Stevens (Cons., Vancouver Centre), was defeated by a vote of 103 to 51. The amendment, which came from Robert Gardner, U.F.A. member for Acadia, was even less successful. It was lost by 141 to 10.

Party lines were followed closely in the division on the sub-amendment. All the Conservatives, except H. B. Adair, Labor member for East Calgary, favored the Conservative proposal. Lined up against

## Wheat For Starving Chinese

Western Farmers Asked To Donate a Bushel of Grain For This Purpose

Winnipeg, Man.—Plea from far off China, where millions have died of starvation and millions more face a like fate during the coming year, have reached the little settlement of Denville, Sask., centre of a thriving agricultural district.

From business men and agriculturists of the district comes a plan to aid the people of the northern regions of China, where 5,000,000 persons have perished from hunger and privation.

The thousands of farmers of the western prairies are urged, in a resolution adopted at a meeting of Denville folk, to donate one bushel of wheat for the famine, and the railway companies of the Dominion are requested to arrange free transportation of this grain to the Orient.

## Tenth Anniversary Of Suffrage Celebrated

Luncheon Party In Forty-two States Joiner By Women

Washington, D.C.—The National League of Women Voters on March 26 celebrated ten years of women's suffrage with a chain of luncheon parties stretching across the United States.

The birthday parties were arranged in 42 states. The luncheon tables were joined by a nationwide hook-up, with Carrie Chapman Catt, silver-haired, 70 years old, the grand old lady of women's suffrage, addressing the thousands of celebrants.

The birthday celebration was the first of a series planned for the next few months in recognition of the first decade of women's voice in government. A convention will be held in Louisville, April 15.

## Dr. R. M. Mitchell Acquitted

Jury At Weyburn Returns Verdict Of Not Guilty

Weyburn, Sask.—Dr. R. M. Mitchell, charged with theft in the Court of King's Bench here, was acquitted by a jury that returned a verdict 20 minutes after retiring.

This concluded a case that has attracted attention of everybody in Weyburn and district for some time. Dr. Mitchell was formerly superintendent of the mental hospital here, and late last fall was requested to hand in his resignation. Following certain investigations by the government, a charge of theft was laid by the attorney-general's department.

The charge arose out of alleged handling of money in the X-ray account in connection with the hospital.

## Airmen Reach Railway

Vance and Blasdale Complete Long Trek Southward

Winnipeg, Man.—Jim Vance and Brian Blasdale, Northern airmen who wintered at Baker Lake, off the west coast of Hudson Bay, have completed a 100-mile trek southward by dog-team. They reached the fringes of civilization March 28, when they entered Gifford, which is Mile 327 on the Hudson Bay Railway, the farthest north point to which the "Muskeg Limited" is operating along the line to Churchill.

# Millions For Good Roads

Saskatchewan Government Has Ambitious Program For This Season

Regina, Sask.—Nearly seven millions will be spent on Saskatchewan roads this season. It was announced by Hon. A. C. Stewart, K.C., Minister of Highways, during the course of the debate on the budget.

The total of \$6,832,386 is to be divided as follows: On trunk highways, \$2,963,586; gravel roads, \$2,373,801; sundry grading, \$385,000; colonization roads, \$120,000. The latter refers to roads in new districts of the province, part of the scheme of the new Anderson government.

Mr. Stewart assured the members that there was no intention on the part of the government to create a highways commission or of abolishing the present department of highways. Roads of the province, their construction and maintenance, would remain as they had always done, under the direct control of the minister.

## British Coal For Canada

Tonnage Chartered For Trade Says British Minister Of Employment

London, Eng.—Very considerable orders for British anthracite and soft coal have been obtained in Canada, says Mr. H. H. Thomas, British private seal and minister of employment, in the House of Commons. The minister was questioned by Sir Kingsley Wood, Conservative member for West Woolwich, who asked if anything had been done to secure western export of the large tonnage coming from the Dominion. Sir Kingsley suggested coal as the most natural article of cargo exchange.

"Yes, sir," replied Mr. Thomas quickly. "My information is that very considerable orders for British anthracite and soft coal have been obtained in the Dominion and I am able to announce that a substantial volume of tonnage has been chartered for this trade to commence with the opening of the St. Lawrence to navigation."

## Will Not Resign

Hon. Dr. Godfrey Will Stand Pat Over Famous Postscript Episode

Toronto.—Hon. Dr. Forbes Godfrey, Minister of Health for Ontario, has reiterated his stand that he will not resign because of the public rebuke administered to him in the legislature by Premier G. H. Ferguson, over the now famous "postscript episode." He also stated a rumor that he will take a long vacation.

"Both are a pile of dreams," he declared. "It was for his action in adding a postscript to a letter written to a constituent of his in which an application for soft coal allowance had been made by a woman residing in Long Branch, was refused."

The postscript reads as follows: "See her if you can and get her support the 30th (election) day, and we will be able to take more time with the case."

## Death Results From Blow

The Pas, Man.—Len Jarvis, 28, is dead following a friendly boxing match with a companion in his father's store at Hudson Bay Junction.

Man. He fainted when struck a heavy body blow and failed to regain consciousness.

## West Grows Airminded

The Pas, Man.—Len Jarvis, 28, is dead following a friendly boxing match with a companion in his father's store at Hudson Bay Junction.

Man. He fainted when struck a heavy body blow and failed to regain consciousness.

## German Cabinet Resigns

Berlin, Germany.—The Mueller cabinet has resigned. The resignation followed an all-day discussion of party leaders which failed to result in an agreement on the question of unemployment insurance. The ministry, which has been in office almost two years, has been difficult ally of late, particularly with the financial program of Dr. Paul Moldenhauer, minister of finance.

Man. He fainted when struck a heavy body blow and failed to regain consciousness.

## NEW APPOINTMENT

Saskatchewan Government Has Ambitious Program For This Season

Regina, Sask.—Nearly seven millions will be spent on Saskatchewan roads this season. It was announced by Hon. A. C. Stewart, K.C., Minister of Highways, during the course of the debate on the budget.

The total of \$6,832,386 is to be divided as follows: On trunk highways, \$2,963,586; gravel roads, \$2,373,801; sundry grading, \$385,000; colonization roads, \$120,000. The latter refers to roads in new districts of the province, part of the scheme of the new Anderson government.

Mr. Stewart assured the members that there was no intention on the part of the government to create a highways commission or of abolishing the present department of highways. Roads of the province, their construction and maintenance, would remain as they had always done, under the direct control of the minister.

## Overseas Wireless Phone

Direct Wireless Telephone Service Between Canada and Britain Is Contemplated

Ottawa, Ont.—Confirmation of the statement of Hon. H. B. Lees-Smith, British postmaster-general, respecting the contemplated establishment of a direct wireless telephone service between Canada and Great Britain was obtained from officials of the Department of Marine. So far, however, the matter has not gone beyond the negotiation stage.

When the system is established it will operate through the Marconi beam wireless at Drummondville, Que., where the transmission will be direct to Rugby, England. This circuit has been operating experimentally the last year. It was employed recently in the broadcast of the King's speech at the opening of the naval disarmament conference. Officials were able to say when the system will be inaugurated commercially.

## Elected Party Leader

J. W. McDonald Is Chosen As Leader Of Liberal Party In Alberta

Calgary, Alberta.—J. W. McDonald, K.C., former mayor of Calgary and prominent in political life of the province, was elected leader at the convention of the provincial Liberal Association.

The election was made on the third ballot, and Mr. McDonald will ascend to the post previously held by Captain M. T. Shaw, K.C.

The race for leadership was close between Mr. McDonald and W. H. Hovson, of Edmonton, and H. Montgomery, of Wetaskiwin, who were the other candidates.

## German Cabinet Resigns

Berlin, Germany.—The Mueller cabinet has resigned. The resignation followed an all-day discussion of party leaders which failed to result in an agreement on the question of unemployment insurance. The ministry, which has been in office almost two years, has been difficult ally of late, particularly with the financial program of Dr. Paul Moldenhauer, minister of finance.

# Viscount Willingdon Sees No Danger In Situation In India

## British Companies Interested

May Invest In Oil Fields and Later Build Steel Mill

Calgary, Alberta.—Laying down of a million dollar stock and oil-well drilling and operating equipment in Calgary during the coming summer and later establishment of a steel mill in this city or at Vancouver if the market proves sufficiently attractive are being recommended to the large British financial and manufacturing interests represented by R. A. Reynolds, Mr. Raymond has spent some time looking over the market.

While declining to give out the names of the British companies who are interested, he stated that they are in a position to handle Canadian business in practically unlimited volume. And it was possible that a merger of a number of well-known firms engaged in the iron and steel manufacturing industry may be combined with a subsidiary Canadian company to handle the business in the Dominion.

## Amendment Is Lost

House Of Commons Defeat Amendment To Bill Providing For Divorce Courts

Ottawa, Ont.—The House of Commons defeated the amendment of Thomas McMillar, Liberal member for South Huron, to the Woodworth bill providing for divorce courts in Ontario, by twenty votes. The vote stood: for 88, against 108.

The amendment expressed regret that the bill provided for divorce in Canada and advised a campaign to foster the idea of the sanctity of the home in the Dominion.

After the vote on the amendment, there were calls for a vote on the main motion. Mr. Speaker LeMieux ruled that as the private member had explicated, it would not be possible to take this vote if any one objected. George Spence, Conservative, North Huron, objected, so the vote was put over until another sitting.

## Heavy Penalty For Robber

Montreal.—The maximum penalty of 14 years in the penitentiary was given Robert A. Watson, who confessed to a series of armed robberies in Montreal during the winter, when he appeared in police court here.

Watson called himself the "Lone Wolf" and robbed some half dozen members of chain stores and other premises during his career here.

## Bandits Get Heavy Sentence

Hamilton, Ont.—Fred Brooks, bandit, said to hold up Bert Irving in his drug store recently, but was overpowered, was sentenced to seven years by Magistrate Burdige. He is also to receive 30 lashes in three instalments. He pleaded guilty to armed assault.

## Would Bring Results Of Research Work To The Knowledge Of Farmers

Regina.—Recommendation will be made by the Agricultural Committee of the Canadian Chamber of Commerce, following a session here, that research work in Canada be extended in all the provinces of Canada, and that further methods be adopted by the Canadian Chamber of Commerce to bring the results of individual farmers as far as can be done.

A second resolution was passed that "the conference suggests to the Canadian Chamber of Commerce that a national bureau of agriculture be established in the Canadian Chamber of Commerce, which bureau would be completely directed by one or more recognized experts, whose duties it would be to survey the whole question of agricultural production, marketing, research, grading, standardization and so forth; and make available to the agriculturists and to business, findings and recommendations, while in part and through nature would command the respect of the sound financial procedure and inspire greater confidence on the part of our producers, middlemen and consumers."

In this connection the Regina conference will recommend to the Agricultural Committee of the Canadian Chamber of Commerce that the committee recommend in turn to the Dominion Government that a committee be set up to study agricultural problems in Canada, members of the body to be men familiar with the economics of agriculture.

## What's Ahead For Agriculture In Canada?

"What's Ahead For Agriculture in Canada?" was the question upon which the National Agricultural Committee of the Canadian Chamber of Commerce based its discussion at the opening session of a meeting at the Saskatchewan Hotel. Col. Robert McEwen, London, Ont., presided.

Representatives attending the meeting were welcomed by Col. J. H. Woods, Calgary, president of the Canadian Chamber of Commerce; and by George H. Barr, K.C., Regina, Saskatchewan, vice-president of the Canadian Chamber of Commerce.

Mr. J. D. MacGregor, lieutenant-governor of Manitoba, told the meeting that, in his opinion, the day of \$1.75 wheat had passed, and emphasized the need for the farmers of the prairies must enter diversified farming. The climate and the various soils of the prairie were amenable for the growing of forage crops and thus the possibilities for livestock were increased.

"Pay your taxes with your stock and have the returns from your main crop as well," he said.

Hon. Mr. MacEwen, who was winner of the grand championship at the Chicago International Exhibition for the years 1912 and 1913, and is known across the continent as one of the leading stock men of Canada and the United States.

George H. Barr, K.C., spoke of the opportunity for service provided through the medium of the Canadian Chamber of Commerce.

## Toronto—His Excellency Viscount Willingdon, Governor-General of Canada, was made life member of the Empire Club at a luncheon when the certificate was presented to him by Sir William Mulock, chief justice of Ontario. A distinguished gathering witnessed the ceremony and heard His Excellency discuss the British Empire.

In making the presentation, Sir William Mulock said: "May it ever be to him an outward and visible sign of the place he occupies in the hearts of all Canadians who consider the British Empire the most effective instrument for world welfare."

His Excellency said there were limitations to what a governor-general could say. He would like to speak of the Empire, the naval conference and various other vital matters, and if he were prime minister would have taken the time to the club on the general election date, he added facetiously.

In making the change in the countries of the Empire from colonial to dominion status, equal partners now working out the Empire, the Viscount Willingdon said some feared this development would result in the Empire's disruption, but speaking from the bottom of his heart, he could foresee nothing but a closer growing together of the partnership.

From a personal acquaintance with Mahatma Gandhi, Indian Nationalist leader, Lord Willingdon said Gandhi had been free of any anxiety about the "adventure" of Gandhi for complete independence. Gandhi had tried the same thing when Lord Willingdon was governor of Madras several years ago. The British government had pledged itself to hand over the machinery of government to India when its people were fitted for self-government.

Mr. Willingdon followed were in a great minority of the Indian population, the Indian princes and the moderate and thoughtful people who "thoroughly disapproved of Gandhi's adventure" would in the future, as in the past, remain loyal to British rule.

## Heavy Penalty For Robber

Montreal.—The maximum penalty of 14 years in the penitentiary was given Robert A. Watson, who confessed to a series of armed robberies in Montreal during the winter, when he appeared in police court here.

Watson called himself the "Lone Wolf" and robbed some half dozen members of chain stores and other premises during his career here.

## Bandits Get Heavy Sentence

Hamilton, Ont.—Fred Brooks, bandit, said to hold up Bert Irving in his drug store recently, but was overpowered, was sentenced to seven years by Magistrate Burdige. He is also to receive 30 lashes in three instalments. He pleaded guilty to armed assault.

## Would Bring Results Of Research Work To The Knowledge Of Farmers

Regina.—Recommendation will be made by the Agricultural Committee of the Canadian Chamber of Commerce, following a session here, that research work in Canada be extended in all the provinces of Canada, and that further methods be adopted by the Canadian Chamber of Commerce to bring the results of individual farmers as far as can be done.

A second resolution was passed that "the conference suggests to the Canadian Chamber of Commerce that a national bureau of agriculture be established in the Canadian Chamber of Commerce, which bureau would be completely directed by one or more recognized experts, whose duties it would be to survey the whole question of agricultural production, marketing, research, grading, standardization and so forth; and make available to the agriculturists and to business, findings and recommendations, while in part and through nature would command the respect of the sound financial procedure and inspire greater confidence on the part of our producers, middlemen and consumers."

In this connection the Regina conference will recommend to the Agricultural Committee of the Canadian Chamber of Commerce that the committee recommend in turn to the Dominion Government that a committee be set up to study agricultural problems in Canada, members of the body to be men familiar with the economics of agriculture.

## What's Ahead For Agriculture In Canada?

"What's Ahead For Agriculture in Canada?" was the question upon which the National Agricultural Committee of the Canadian Chamber of Commerce based its discussion at the opening session of a meeting at the Saskatchewan Hotel. Col. Robert McEwen, London, Ont., presided.

Representatives attending the meeting were welcomed by Col. J. H. Woods, Calgary, president of the Canadian Chamber of Commerce; and by George H. Barr, K.C., Regina, Saskatchewan, vice-president of the Canadian Chamber of Commerce.

Mr. J. D. MacGregor, lieutenant-governor of Manitoba, told the meeting that, in his opinion, the day of \$1.75 wheat had passed, and emphasized the need for the farmers of the prairies must enter diversified farming. The climate and the various soils of the prairie were amenable for the growing of forage crops and thus the possibilities for livestock were increased.

"Pay your taxes with your stock and have the returns from your main crop as well," he said.

Hon. Mr. MacEwen, who was winner of the grand championship at the Chicago International Exhibition for the years 1912 and 1913, and is known across the continent as one of the leading stock men of Canada and the United States.

George H. Barr, K.C., spoke of the opportunity for service provided through the medium of the Canadian Chamber of Commerce.

# Geographical Features Named After Indian Chiefs Are Numerous From Coast To Coast

Geographical features named after Indian chiefs are numerous in Canada. It is exactly 100 years since the first appearance on a map of the name Petawawa. According to the records of the Geographic Board of Canada, Petawawa River occurs on a map made in 1899 by Colonel John By who built the Rideau Canal.

The name is now applied to the military camp on the Petawawa River in Renfrew County, Ontario. The Indian chief, Petawawa, is said to have hunted in the region and the meaning of the name is "the sound is coming" or "approaching sound."

In some cases an Indian has been commemorated by a name given him by the whites. There are several examples of this nature in the Brunswick, where Burnaby River, Bartling River, Cain River, and "Tacka" River bear the names of Indian chiefs who once lived on these streams.

In Quebec the town of Donnacona recalls the "Donnacona" who was taken to France by Jacques Cartier, in 1536, and died there.

In Manitoba, Peguiss post office takes its name from a Native chief who, in 1835, was granted an annuity of \$25 by the Hudson's Bay Company.

He was a friend of the colonists of the Red River Settlement (Winnipeg), and well disposed towards the whites.

In Saskatchewan, Cutknife Hill, according to tradition, commemorates a Sarcee who was killed on it in battle with Crow. In Alberta, Crowfoot Village, Moksato lake, are a tribute to the worth of Indian chiefs who on the coming of white men ended their title to vast areas and forsook tribal warfare. Crowfoot, head chief of the Blackfeet, was a business man, not a warrior, who kept his tribe at peace with the whites. Moksato, or Red Crow, head chief of the Southern Bloods, was loyal throughout the 1885 rebellion. Chiniki was a Stoney Indian chief.

Kanaskis pass, in the Rockies, commemorates an Indian who made a wonderful recovery from the blow of an axe. Peacekeeper River, in Alberta and British Columbia bears the name of a Beaver Indian chief who settled on the river with 600 followers.

The name is French for "cut thumb." In British Columbia, Kinbasket Lake, an expansion of the Columbia River, was so named in 1866 by Walter Moberly, C.E., after a Shuswap Indian chief who was of service to him on an exploratory trip. Nicola Lake commemorates an Indian chief whose other name, Neisternemkin, meaning "walking grizzly bear," well describes his character.

## To Grow Early Potatoes

B.C. Association Imports Certified Seed From Prince Edward Island. For the purpose of supplying the prairie markets with early potatoes, some fifty farmers on Luis Island, British Columbia, an expansion of the Columbia River, was so named in 1866 by Walter Moberly, C.E., after a Shuswap Indian chief who was of service to him on an exploratory trip. Nicola Lake commemorates an Indian chief whose other name, Neisternemkin, meaning "walking grizzly bear," well describes his character.

Each member will put in a special plot of two or three acres of early potatoes, which will be planted simultaneously at the end of the present month, so that they will be ready for market at the same time. Irish Cobbler has been selected as the variety to use and a carload of certified seed has been imported from Prince Edward Island.

**Pandora Statue Unveiled**  
A statue of Mrs. Emmeline Pankhurst, who led the movement for the enfranchisement of women in Great Britain, was unveiled in Victoria Tower Gardens, Westminster, in the presence of many of the leading figures in the suffrage cause. Many political leaders were present and Stanley Baldwin, the former Premier, performed the unveiling ceremony.

"Sing us a song."  
"I dare not with all these people."  
"Pooh, they won't listen." — Musket, Vienna.

The man who rides the high horse is likely to get thrown.

W. N. U. 1521

# Problems Poultry Men Have Not Solved Why Eggs Should Differ According To When They Are Laid

Why should eggs laid in January, February, and March, make light cakes, and eggs laid in May, June and July make heavy, soggy cakes? Why should eggs laid in March give a low percentage of chickens as compared with eggs laid in January, February, April or May?

These were some of the unsolved problems mentioned by Professor R. K. Baker, head of the poultry department at the University of Saskatchewan and producers of the world's champion hen, in his discussion before the Saskatchewan branch of the Canadian Society of Technical Agriculturists on "some discoveries that have affected poultry breeding."

Discoveries regarding vitamins had made the 300-egg hen possible, light weakness, partial paralysis and crooked keel bones were becoming rare since vitamins had been studied and the birds were getting sprouted oats, cabbage, carrots and cod liver oil.

X-ray experiments on eggs were giving interesting results. A short exposure is said to improve the hatching percentage of eggs. An exposure of 5 to 20 minutes is said to increase the rate at which chicks grow after hatching. An exposure of several hours is said to affect the sex ratio of chicks so that more of the chicks are females.

When the University of Saskatchewan flock was started in 1913 the laying average was less than 100 eggs per hen. By 1926 it was over 175 eggs. Last year's average has only been worked out for one family. The 44 daughters of one bird average 217 eggs. There was not a poor bird in the family. The 358-egg champion came from another family.

## Colour Indicates Real Grade

Maple Sugar Or Syrup Of Light Color Is The Best Grade

The maple sugar industry is one of the oldest known to this continent. It was brought to the early settlers by native Indian and today is an outstanding commercial interest. The Dominion Department of Agriculture finds that quality in maple sugar and syrup is clearly indicated by colour. The grading rule is the lighter the product the better its quality. Grade 1 is very light colour, corresponding closely to clover honey in appearance. Grades 2 and 3 are perceptibly darker, while Grade 4 corresponds quite closely to the colour of buckwheat honey. Quality counts in maple products as in every other line.

## Completing Dairy Survey

Dr. Misener, of Cornell University, N.Y., has returned to his work, after completing the field work of a survey of the dairy industry of Saskatchewan. J. K. Finlayson, of the Saskatchewan Milk Producers' Board, has gone to Cornell with him, where he will complete the summarization of the facts and figures which will occupy about two months.

Nearly 30,000 tons of beans were shipped daily during the recent bean harvesting season in southern China.

# Three Hundred Millions Spent By American Tourists In Canada During Year 1929

Gold from the south washes over the international boundary in great waves as soon as the tourist season begins. The year 1929, for which figures were just made public, was the best on record. Practically 300 millions were spent in Canada last year by tourists.

## Hard Legal Problem

English Magistrates Puzzled Over Definition of "Farmer"

What is a farmer? Hundreds of people who gain their livelihood from their own land in the counties of England are affected by that legal question.

Large sums of money, too, are involved, for dependent on the answer to the problem is the amount of rates which may, or may not, have to be paid by the men and women who consider themselves "farmers" in the legal sense.

In, for example, a bee-keeper a "farmer" Can a keeper of chickens be called a farmer?

One of the difficulties has been settled by the Oxfordshire Quarter Sessions in considering a rating appeal—the first case of its kind. The magistrates at the Oxford County Hall decided that a bee-keeper was a farmer, and, as such was entitled to have his house rated as a "farmhouse."

Christopher Bartlett, of Sandford, Oxfordshire, appealed to the Quarter Sessions against the assessment of his house, because he was a bee-keeper. His house had been assessed at £100, whereas he maintained that as a farmhouse the assessment should not be more than £40.

"He is the largest bee-farmer in England," said E. G. Gort, counsel for Mr. Bartlett. "His home has been assessed as a country house, whereas it is farmed by a man who is engaged in an agricultural holding and is therefore a farmhouse in fact."

Dr. Earengy, counsel for the rating authority, and one of the foremost barristers on the Oxford circuit, submitted that bee-keeping was not farming. R. T. Karris, the rating officer for the Chipping Norton Council, gave evidence that, in his opinion, £100 was the fair and proper assessment for Sandford Mount.

Eventually the magistrates upheld the appeal of Mr. Bartlett, and fixed the assessment of his house at £40—a reduction of £60 from the former rateable value.

## Publicity For Grain Show

Exhibits Will Be Displayed At World Poultry Congress

World Grain Exhibition and Congress, to be held in Regina, in 1932, has obtained exhibition space at the World Poultry Congress, to be held in London, this year, at Crystal Palace, London, England. Oscar Turcotte, Canadian Exhibition manager, London, England, will arrange the display that will occupy a square with 576 square feet of space at the World Poultry Congress.

The World Grain show will have the display of grains and other crops to be exhibited in Regina situated in the commercial section of the displays at the World Poultry Congress, and announcements of the World Grain show will be distributed from the exhibit square to delegates from all parts of the world attending the congress.

Similar exhibitions of grain and associated crops will be made at Antwerp, Paris and Buenos Ayres under the personal direction of Mr. Turcotte.

## Plant Clean Seed

Need For Planting Clean Seed This Year Is Greater Than Ever Before

You may not always be able to afford finest quality registered seed for planting, but you can always afford clean seed for planting. The seed branch of the Dominion Department of Agriculture are urging the planting of clean seed this year more than ever before—clean seed pays, particularly with the weed menace reaching the alarming proportions it does in many parts of Canada today.

There are many effective ways of cleaning seed, depending upon the quantity to be cleaned, location and equipment. In many parts of Canada seed cleaning machinery is readily available for the purifier, while in others suitable screens can be adapted to the fanning mill, and in some of the more remote sections the old pioneer method of wind cleaning is always available.

"To attain happiness," says a lecturer, "one must vibrate in tune with one's environment."

According to that, a man with St. Vitus Dance at a jazz concert would be in perfect bliss.

A first edition copy of Dickens' "Great Expectations" was sold recently in London, for \$1,275.

The photograph here shows Col. W. G. Barker, V.C., D.S.O., M.C., with bar, who was instantly killed in Ottawa when his aeroplane stalled at a low altitude and crashed to the ground. Col. Barker was one of the greatest of Canada's war aces, having 52 enemy aeroplanes to his credit.

## WORLD HAPPENINGS BRIEFLY TOLD

Prof. Joseph Cohn, of the Ontario Agricultural College, has been appointed assistant commissioner of agricultural economics with the Dominion Department of Agriculture.

The Transvaal's gold production last year totalled approximately \$250,000,000. A new record, it was announced at the annual meeting of the industry.

The King and Queen of the Belgians have delayed the reputed cure of the Fluorine. With Howard Carter, King Albert and Queen Elizabeth visited the tomb of Tut-ank-amun.

Manitoba now produces nearly one-fifth of the total Canadian output of leather goods and mitts, according to Board of Trade figures. The annual production runs to nearly a million dollars.

The British, South African and Canadian farmers have concluded their tour of New Zealand and are now on the water bound for Sydney, Australia. Before leaving the visiting agriculturists termed their tour a memorable visit.

Eight million Chinese peasants, living in the 56 districts of Kiangsu Province, South China, are being the terrors of starvation. Banditry and crop failures are said to be responsible. Property loss is estimated at \$20,000,000.

The government leakeaker Mikula is making good progress in breaking a passage through the ice to the Arctic. There is evidence that this spring will produce a surprise in regard to the early opening of navigation.

It was authoritatively stated that nothing was known in London regarding a report from the United States that the Prince of Wales proposed visiting Canada and the United States next summer. The Prince is expected back from his African trip at the end of April.

## Bolivia May Have Exhibit

Grain Growers Encouraged To Take Part In World Congress  
Bolivia has formally acknowledged the invitation to the country to be officially represented at the World Grain Exhibition and Congress in Regina in 1932. The country has not decided officially that it will be represented at the World Grain Show, but said that it was desirable that they should be represented officially at the show in Regina in 1932. Considerable encouragement was being given to grain growers of the republic to exhibit at Regina and the World Grain Show, it was said.

## Testing Sugar Beet Areas

Selections Made In Manitoba Of Zones For Planting  
Five areas where beet growing tests might be made in Manitoba have been selected by the special industrial development board meeting. Farmers have been approached in these zones and arrangements to plant made. Messrs. McLean, manager of the Grand Forks Branch, and Lund, fields supervisor of the American Sugar Beet Company, will be asked to visit Manitoba to make the final selections, it has been decided.

## Back To Civilization

Deprived Of Its Comforts People Realize How Wonderful It Is

"The men of the Byrd Antarctic expedition scattered all over Dundee," writes Russell Owen, staff correspondent of the New York Times "trevelling in the shops, walking the hard pavements with joy at the unaccustomed sensation of not sliding in at every step, eating enormous meals and generally having the time of their lives. It seems too good to be true to be ashore again and dodging automobiles." And talking in barbers' chairs, no doubt, and luxuriating in hot baths, and commencing hot boys to do trivial errands, and declining all drinks made with ice, and watching the sun go down at night. It is somewhat pathetic indeed, to read of the delight which can be caused by these prosaic things that have become so commonplace to the rest of us; somewhat chastening too, for it serves as a reminder that we should not take our civilization too much for granted. Even at Thanksgiving time, we are somewhat mechanical with our gratitude for the blessings to which we have fallen heir, but it is some turn of events were to deprive us of these blessings, as the men of the Byrd expedition have been deprived of them for the last year, we should realize pretty quickly that even food, clothing and water are things that have been wrested from the earth by painful labor and that it is a dreadful hardship to be without them. The men of the Byrd expedition, of course, have already been attained; the game has been won, the goal posts torn up, and we witness merely the return of the team to its own home camp. Yet so far as many of us are concerned, this return trip may provide much food for thought than the scoring itself. What is more stimulating than the discovery that the human world we live in may after all have a touch of the miraculous about it?

Superintendent of the Portage Division of the Canadian National Railways, Winnipeg, who has been appointed General Superintendent of the Alberta District with headquarters in Edmonton.

**Saskatchewan Will Fight Cancer Scourge**

Legislation Provides For Commission To Administer Act For Diagnostic Clinics

Saskatchewan, first of Canadian provinces, has made preparations to combat the growing menace of cancer as a public health problem. The necessary machinery is provided in a Bill to establish a permanent Cancer Commission in the province, which has just been passed by the Saskatchewan Legislature. In this act, the Hon. Dr. M. J. Munroe, M.D., Minister of Public Health, has enhanced the already high prestige in Saskatchewan in matters pertaining to the public health. Incidentally, he has, thus early in his ministerial career, insured himself a permanent niche in Canada's hall of medical fame.

In plotting his first major legislative through the Saskatchewan Legislature, Munroe emphasized the necessity of co-ordinating efforts and providing the means for the necessary backing his arguments with a wealth of statistical information. The minister emphasized the fact that a comprehensive anti-cancer program must provide three main features: The education of the public, facilities for diagnosis and the means of treatment. All three factors are provided for in the new Act.

Stressing the importance of the educational factor, Hon. Dr. Munroe declared that "the one great handicap under which all physicians labor at the present time is the delay on the part of the patient in consulting them." Educational work, the minister was essential requirements of a successful campaign, he added.

Provision is made in the Act for the establishment of consultative diagnostic clinics in the province, wherein facilities will be provided for early diagnosis of the disease. The minister stated that "radium is used in the treatment of cancer in two ways: as a great majority of cases the radium salt is used in the form of a paste, or in the form of a gas, and there is also a third method of treatment known as 'seeds.' A somewhat elaborate apparatus is required for the purpose of carrying this gas on, and as well, to collect it and regulate the dosage in each seed. The minister then stated that it was proposed to establish an emanation plant of this nature at the University of Saskatchewan, whenever there was assurance of a sufficient demand for the gas seeds to keep the plant in operation. That medical men in neighboring provinces and in Alberta already had informed him they would welcome the opportunity of procuring these seeds. The Act also makes provision for the regulation of the sale of radium emanation and its derivatives.

Operation of the Act will be assigned to a permanent Cancer Commission. One and one-half grammes of radium will be procured, according to present intentions, at a cost of \$10,000 to \$15,000. It is the minister's intention that the diagnosis and treatment of cancer will be free of service, but definite assurance was given that the Minister that the government would be reasonable and that provision would be made so that "every one may receive the necessary service able to pay for it or not."

**B.C. Fishing Regulations**  
Complete revision of the fishery regulations for British Columbia has been adopted by an order in council of the Dominion Government, and a number of important changes in the regulations have thereby been made. Says a statement issued by the fisheries branch. Under the constitution the right of making fisheries regulations for all the provinces rests with the Dominion authorities.

## DON'T SUFFER WITH DANGEROUS INDIGESTION

You suffer after meals with a belching, from sour and acid stomach? Many believe they have heart trouble and tremble with fear, expecting any minute to drop dead. This condition can be cured by taking Little Liver Pills.

Take Carter's Little Liver Pills after meals and neutralize the acids. Sweeten the sour and acid stomach, relieve the gas and encourage digestion. The stomach, liver and bowels will be cleansed of poison, painful and dangerous indigestion disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for a 25c box of Carter's Little Liver Pills.

## Would Save Millions

Many Simple Forms Of Waste Could Be Stopped

How much water is wasted by a dripping tap? An answer was provided when New York decided to levy a fine of two dollars for every tap found leaking. In two years 40,000 million gallons of water were saved. It seems somewhat to worry about the amount of steam wasted when a locomotive blows a whistle. But Dr. E. J. Indiana University, has calculated that 4,844,028 gallons of steam are consumed annually in generating steam to blow United States locomotive whistles, and that if the whistles were moved slightly forward and adapted to a single high-pitched note, about a million pounds a year could be saved. But this loss is small compared with that involved in throwing into the dustbin thousands of dollars' worth of food. It is estimated that a third of the food thrown away retain from fifty to seventy per cent. of their heating value.

## Recipes For This Week

(By Betty Barckay)

## COURT BOULION

- 2 cups cold water.
- 3 slices carrot.
- 1 slice onion.
- 1 sprig parsley.
- 2 tablespoons lemon juice.
- But. bay leaf.
- 1 teaspoon peppercorns.

Put ingredients in saucepan, adding head and bones of fish, if at hand, bring to boiling point and cook thirty minutes, or until reduced to one cup. Use for sauces, fish aspic, to flavor the water in which fish is cooked, or as a foundation of a fish soup.

## MARSHMALLOW WHIP

- 1 package strawberry flavored gelatin.
  - 1 cup boiling water.
  - 1 cup cold water or fruit juice.
  - 6 marshmallows, finely cut.
- Dissolve gelatin in boiling water. Add cold water or fruit juice. Chill. When slightly thickened, beat with rotary egg beater until like whipped cream. Add marshmallows. Fill lightly in sherbet glasses or pour into mold. Chill until firm. Serves 6.

## Chinese Have Many Gods

But None Of Them Are Worshipped As A Supreme Creator

Chinese people worship so many gods that it has taken Newton Hayes, noted theologian, many years to count them. As a matter of fact, he never actually completed the job.

In a recent survey of Chinese religions, published after ten years of study, Mr. Hayes quotes contemporary writers who state that the Chinese divinities total 33,339, while the Greeks of ancient times had 30,000. The Chinese, he asserts, can exceed even these figures.

Besides thousands of idols, Mr. Hayes has found that the Chinese worship horses, cows, snakes, while even some aspects which feed on the human body have supernatural powers accorded to them by humans being living in Cathay.

Mr. Hayes has also found that one can search in vain for a supreme creator and ruler of the universe. All other nations have a supreme deity, he points out, but China has none that occupies exactly the same place in her category of gods.

Ten years' study of the gods of the Chinese leads us to feel that it is safe to say that there are probably even more recognized deities in the Chinese pantheon than in those of any other race.

"There are more images in this country than are found in the temples and homes of any other land. Indeed, the number of gods is so great that Dr. Groot not only characterizes it as 'infinite' but almost in desperation resorts to a hyperbole, declaring that in the creation of new gods for their 'unfettered polytheism' the Chinese are bounded by nothing but the circumstances that even the human art of inventing gods has its limits."

"There are gods of the mountains, rivers, seas and cities; gods of the living and gods of the spirit world. There are gods both good and powerful and weak, handsome and ugly, kindly and cruel. There is a god in desperation resorts to a hyperbole, declaring that in the creation of new gods for their 'unfettered polytheism' the Chinese are bounded by nothing but the circumstances that even the human art of inventing gods has its limits."

"There are gods of the mountains, rivers, seas and cities; gods of the living and gods of the spirit world. There are gods both good and powerful and weak, handsome and ugly, kindly and cruel. There is a god in desperation resorts to a hyperbole, declaring that in the creation of new gods for their 'unfettered polytheism' the Chinese are bounded by nothing but the circumstances that even the human art of inventing gods has its limits."

**Will Not Claim Land**  
In an interview, Rear Admiral Richard Evelyn Byrd said that he had no intention of claiming for the United States the new Antarctic lands he had discovered. He declared that the newly found land in the Antarctic was for the world as much as for his own country.

"Where did Brown get all his money?"  
"In the hold-up business."

"Yes, He manufactures garters."

A sound film automaton specially designed for advertising purposes, has been perfected in Australia.

## DOLOSO GOVERNMENT

"May Be in a Deck, Doctor said. Healed by the use of Dr. Spohn's Compound. Sold everywhere. Price 25c. Spohn Medical Co., N.Y. & Canada."

## COUGHS-COLDS SPOHN'S COMPOUND

Practiced by home cures everywhere. Healed by the use of Dr. Spohn's Compound. Sold everywhere. Price 25c. Spohn Medical Co., N.Y. & Canada."

## Horror Of The Sea

Natives Of Australia's Barrier Reef

Though beautiful to look at, Neptune's gardens are full of tragedy. There the struggle for existence is keener and more violent than on land. (Writes a contributor who describes the wonders of Australia's Barrier Reef.) The stonish is a dreadful thing inhabiting the coral gardens, and so closely does it blend with its surroundings that it is difficult to tell it from the lightest touch of a cause 13 horrible, poisonous spikes to discharge a deadly venom into its victim, who endures an agony that is only relieved by delirium or death.

In 1915, Dr. J. L. Waseel, quarantine and health officer for Queensland, stood upon a stonish while walking on the barrier. The spikes penetrated his boot and went into his foot. He lingered in torture for three days and died. Before that time it was known of the stonish except by the natives. They always hold the creature in horror. So greatly do they fear it that they make models of it in wax and teach their children to watch for it and avoid it.

**Judged By Their Work**  
Something Wrong When People Zag

I was recently walking with a doctor who makes nervous diseases his specialty, writes a correspondent. He said "Look at this woman in front of you. Watch how she zig-zags this way and that. She doesn't keep a straight course for a dozen steps at a time." I watched; it was as the doctor said. He went on to tell me that a great many women and some men walk in this way. It indicates weakness of purpose, indecision, a restless temperament. "If people walk straight, they probably think straight," the doctor said. "A walk like that is a symptom of something wrong. It's a symptom a great many people display."

Twelve British ships were lost during the three months ended September 30, 1929, against 45 vessels of foreign countries.

The earth travels around the sun at an average speed of 35,842 miles a second, or nearly 70,000 miles an hour.

## Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

## WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, and will withstand extreme temperatures, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays which do not penetrate ordinary glass.

**USE WINDOLITE IN BROODER HOUSES LAYING PENS DAIRY BARN SPOONERS ETC.**

**CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE**

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. It keeps broilers and turkeys from getting weak, nervous and diseased and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Grand Prairie country. Messrs.  
Tom Stewart, H. Robinson and  
Ernie Durr also left for the  
north country the same day.  
Thursday.

#### Prov. Ferry Service Change Has Been Announced

In cases where traffic war-  
rants it, free ferry service thro-  
ughout Alberta will be extend-  
ed by John B. Robertson, depu-  
ty minister of public works.  
Where there is sufficient traf-  
fic to warrant the employment  
of two men, the ferry will be  
operated free from 7 a.m. to 12  
m. in daylight; seven days in the  
week. Between midnight and  
7 a.m. the regular tolls are

The Quebec Winter Sports As-  
sociation has decided to hang up  
cash awards for the winners of the  
Ice Canoe Race which will be held Feb-  
ruary 23. Canoeists will have  
Levis with their ice canoes, make  
their way across the River St. Law-  
rence to Quebec, take a bag aboard  
under the shadow of historic Cha-  
teau Frontenac, and then negotiate  
the half-mile stretch that separates  
the two cities.

"By careful selection of the char-  
acter of colonists we help in the development  
of the Dominion." Col. J. S. Dennis,  
former chief commissioner of Col-  
onization and Development, Cana-  
dian Pacific Railway and now acting  
in an advisory capacity to the  
department, said on sailing from  
Saint John recently on a trip of in-  
spection to Great Britain and Europe.  
He will discuss certain  
agreements between the British  
Government and the C. P. R. re-  
garding movement and placing of  
British colonists in Canada.

Canadians drink nearly 100 per  
cent. more milk than they did in  
1921. The per capita consumption  
is about one pint per day, or 478  
pounds, per year, compared with  
about one-half pint per head of  
population in 1921. The milk con-  
sumption in the United States is  
about 650 pounds per capita per  
year or less than a pint per day  
per person. "Canadians eat more  
butter than the people of any other  
country in the world—29.31 pounds  
per capita per annum—in 1921, an  
increase from 25.79 pounds since 1921. Their  
appetite for ice cream has increased  
from 2.51 pints in 1921 to 7.64 pints  
in 1928, and the per capita con-  
sumption of chocolate has risen from  
2.51 pounds in 1921 to 3.51 pounds.

charged. Where there is not  
sufficient traffic to warrant the  
employment of two men, fer-  
ries will be operated free from  
7 a.m. to 9 p.m., seven days  
per week, after which hours  
the regular tolls will be charg-  
ed. The ferryman on the one-  
man ferries is permitted to sus-  
pend operation to give him  
time to have his meals and 20  
minutes for noon, between 12  
and 12.30, and 30 minutes be-  
tween 6 and 6.30 in the even-  
ing. The man in charge of the  
one-man ferry is permitted to  
engage an assistant for each  
Sunday in the month.

Mr. Robertson estimated that  
there would be from 15 to 20  
ferries in the two-man class,  
and from 35 to 40 in the one-  
man class.

R. M. Mantario  
(cont. from last week)

Astrum—Whereas the R.M.  
Milton No. 292 has not built the  
south boundary road to a rea-  
sonable width, nor installed  
culverts at the road intersec-  
tions;

Whereas the said road for  
over two miles has only a 10 ft.  
top and is dangerous to the  
travelling public;

That R.M. Mantario No. 292  
pay the grant under protest  
and is further exempt from all  
damage claims in respect to  
accidents that may occur due to  
the said road not being of stan-  
dard width, and that R.M. Mil-  
ton No. 292 in accepting the  
aid agree to these terms;  
and also to widen the said  
road and install and locate the  
required culverts on their south  
boundary road.

Hawth—That whereas grave  
injustice and inconvenience is  
caused to ratepayers through the  
refusal of some municipali-  
ties to construct and maintain  
roads on the boundary between  
other municipalities, the ef-

fect the secretary be instructed to  
write the Dept. of Highways,  
giving the facts in these partic-  
ular cases, with the object in  
view of having any contem-  
plated road grant to the offend-  
ing municipalities placed upon  
the roads in question.

Hawth—That in order to ex-  
pedite business and to prevent  
undue delay, the Council  
shall resolve to adopt the fol-  
lowing rules:

1st. The Council shall meet  
promptly at the hour set.

2nd. A definite order of busi-  
ness to be adopted.

3rd. The Secretary and Reeve  
prepare an agenda before each  
meeting.

4th. All resolutions to be  
handed to the Secretary in  
writing.

5th. That the order of busi-  
ness be suspended between 1  
p.m. and 1.30 p.m., to take up  
the business of any taxpayer  
and deputations to the Council.  
A further rule requiring not-  
ice of motion, in regard to any  
thing new, of interest to ad-  
vising only, to be given one  
month prior to the meeting,  
was objected round withdrawn  
from the motion.

Hawth—That owing to the  
special conditions in the Munic-  
ipality, the Council is made to  
consider any grants to agricul-  
tural land societies or to the Sal-  
vation Army this year.

Astrum—Re. account from  
City Hospital, Saskatoon, as we  
did not receive any notice of  
admission of this patient, we  
decline to pay until we are  
given full particulars of the  
case and the date of ad-  
mission.

Hawth—That a letter  
be written thanking the doctor.

Red Cross for their action in  
the matter of Emma Hughes,  
and stating that recognition of  
same is hoped to be considered  
at a later date.

Hawth—That the balance of  
collected road work be appropri-  
ated as under: Div. 2, \$45; Div. 5,  
14.00; Div. 6, \$40.

Kinch—That accounts passed  
by finance committee be paid.

Dahl—Re. account of J.  
Adams built's fee; that \$4 be  
paid.

Betty—That the sum of \$3000  
be voted for road; 1500.00 to  
be divided according to assess-  
ment and \$1500 to be divided  
Divs. 1, 3, 4, 5 and 6, 250.00;  
Div. 2, 350.00.

The amount appropriated is  
as under:

Div. 1, 221.50, voted 230.00 less  
250.00 advanced; 201.00

Div. 2, 188.50, voted, 350.00;  
538.50.

Div. 3, 215.50, voted 230.00  
less 55.00 advanced; 300.50.

Div. 4, 450.00, voted 230.00;  
less 87.00 R.M. 292, 563.00.

Div. 5, 224.50, voted, 230.00;  
less 86.00 R.M. 292; 307.50.

Div. 6, 200.00, voted, 230.00  
less 87.00 R.M. 292; 343.00.

Hawth—That On, Betty be  
Deputy Reeve for next three  
months.

Astrum—That not more  
than \$100 be paid out in cash  
for road work in each division.
